#### Oportunidades de cooperación tecnológica: Demandas

##### [Novel solutions for the processing and/or recycling of primary lithium batteries and coin cells](#)

*Update: 2021-05-03 - Deadline: 2022-05-04*

A UK battery recycling plant has an interest and resources to develop mid-readiness level primary lithium battery recycling technologies to market readiness. Developers of chemistries and processes for primary lithium batteries and all types of coin cells are invited to discuss technical cooperation at the UK site. Said technologies will be matured to market readiness.

##### [Medical diagnostic centre is looking for ways to make the waste flow of blood samples more sustainable.](#)

*Update: 2021-04-30 - Deadline: 2022-05-01*

A Dutch medical diagnostic centre is looking for ways to make the waste flow consisting of plastic tubes, rubber / plastic sealing material, labels, buffer fluid and human material (blood and other fluids) more sustainable. Cooperation is envisaged within the frame of a technical cooperation agreement. Other types of agreement may be considered. This request refers to an innovation challenge published on an open innovation platform.

##### [Small alternative energy storage devices sought](#)

*Update: 2021-05-04 - Deadline: 2021-06-04*

A German company seeks a start-up company as partner for the development of an alternative energy storage device for small electrical appliances. The solutions should have better performance data, should decrease costs and save resources compared to the lithium-ions used up to now. This is organised as a competition, and so expressions of interest should be submitted by 31st of May. A technical cooperation agreement is sought with an innovative start-up that has solutions for energy storage.

#### Oportunidades de cooperación tecnológica: Ofertas

[Spanish technology company offers software to add custom metadata in bulk, dynamic filters, and views, and create workflows to improve productivity and organization](#)

*Update: 2021-04-26 - Deadline: 2022-04-27*

Spanish company working in technology solutions in the cloud has developed a software to add custom metadata in bulk, dynamics filters, views and create workflows. The company is looking for Small and Medium-Sized Enterprises that need a Document Management System (DMS) to store, manage and control the flow documents within the organization. The company offers themselves as partners to cooperate in the digital transformation process under a commercial agreement with technical assistance.

[Ukrainian company offers equipment for sustainable transformation of food waste into feed mix for fattening pigs under commercial agreement with technical assistance](#)

*Update: 2021-05-03 - Deadline: 2022-05-04*

The Ukrainian company offers sustainable equipment which grinds, disinfects and heats the mixture of food waste turning it into feed mix. The production of the feed mixture from waste is possible not only from the expired food products of supermarkets, but also from the food waste of restaurants, cafes and food production processes. Commercial agreement with technical assistance will be considered.

[The Russian company offering the solution of creating new high-performance membranes designed for the separation of water media, water treatment and distillation seeks partners for technical cooperation agreement](#)

*Update: 2021-04-29 - Deadline: 2022-04-30*

The Russian company specializing in water purification has aimed to solve the problem of creating new high-performance membranes designed for the separation of water media, water treatment and distillation. The company is looking for partners to conclude a technical cooperation agreement.

[A French company specialised in digital environmental monitoring is looking for partners in offshore wind farms](#)

*Update: 2021-04-27 - Deadline: 2022-04-28*

A French start-up developed an innovative digital solution to assess marine megafauna in offshore wind farms. The company is looking for partners to integrate its solution in offers for offshore wind farms environmental assessments in other European countries under commercial agreement with technical assistance.

[The Slovak company offers biological solution for contaminated sites, ecological mining and metals removal from minerals while producing biofertilizer is looking for license or joint venture agreement](#)

*Update: 2021-04-29 - Deadline: 2022-04-30*

The Slovak company is dealing with a new bioleaching method, giving various industrial waste a second life, replacing dangerous mining and processing methods and removing metals from industrial minerals in an ecological and economic way while producing biofertilizer. It is looking for license or joint venture agreement.

[Advanced geolocated audio archiving system for soundscapes](#)

*Update: 2021-04-27 - Deadline: 2022-04-28*

An Italian SME creating and distributing audiovisual works in the Film industry has developed an

These sound recordings contain a huge amount of information very difficult to archive, analyze and use through traditional systems. Organizations interested to use this technology for noise pollution or environment monitoring and analysis are sought for commercial agreement or technical cooperation.

[Innovative technological infrastructure for the acquisition, integration and dissemination of data on the marine ecosystem](#)

*Update: 2021-04-28 - Deadline: 2022-04-29*

A company based in North-Eastern Italy has developed an innovative technological infrastructure for the acquisition, integration and dissemination of data on marine ecosystem. Laymen as 'citizen scientists', public and private institutions and everyone who will provide access to their ships, can contribute to data collection. This can become a very important tool for scientific outreach and for public awareness, oriented to marine monitoring. Research and technical cooperation is sought.

## Oportunidades de cooperación empresarial: Demandas

### Oportunidades de cooperación empresarial: Ofertas

[Greek company specialized in the trade of disinfectants and cleaning products, also against Covid-19, for household and industrial use is looking for distribution services and commercial agency agreement.](#)

*Update: 2021-04-26 - Deadline: 2022-04-27*

The Greek company is specialized in the trade of high quality, EU standard compliant professional cleaning products, for household and industrial use.
